

SI ULTRA 4000

SI ULTRA 4000 is here to change the way you think for DLP LED Technology studded 3D Printers for Jewellery. 4K Resolution is the latest technology used in the machine which promises the premium-quality perfection & outputs more molds with a larger platform size of 192*108*150mm as compared to existing DLP LED technology machines. This made in India 3D Jewellery Printer gives a tough competition to similar International Level machines.

3 Years Warranty on Machine. Free lifetime software upgrade. Prompt service facility along with Brilliant Customer Support is just a few of its immaculate features besides easing your printing job. Its impeccable performance is all you need to add to your 3D Jewellery Printing League.
